

Have you ever wondered about bridges collapsing, airplanes crashing and trains derailing? With Non-Destructive Testing (NDT), safety is assured.

2021 applications for Diploma and Advanced Diploma in NDT are still open.

NDT is a broad field in science and engineering used to identify defects in components and evaluate properties of materials without causing damage.

Motto: VUT, where NDT meets student's rewarding and challenging career

Entry requirements for Diploma

1. National Senior Certificate (NSC) Entry Requirements:

Subjects	Diploma: Non-Destructive Testing	Note
