

Welcoming Programme for all Faculties

All registered first-year students will be invited through a sms and/or email to attend an orientation session at a set date and time. The orientation session will consist of the welcoming and faculty orientation programmes as well as a campus tour. On the day of the orientation session, all first-year students need to report to the small entrance gate known as Tango 2 (opposite Point Café). From there, students will be guided through the programme by student mentors and peer educators.

Day 4: Friday, 26 March 2021

Faculty of Engineering & Technology
