Faculty of Applied & Computer Sciences

2021 for 2022

Vanderbijlpark
# DEPARTMENT: BIOTECHNOLOGY

Diploma: Biotechnology, 3 Year course  
Advanced Diploma: Biotechnology (1 Year course- Full Time), Postgraduate Diploma: Biotechnology (1 Year course- Full Time)  
Master of Applied Science in Biotechnology (by research), PhD: Biotechnology (by research)

## 1. Admission Requirements:

### DIPLOMA: BIOTECHNOLOGY

**Subjects**

**TOTAL** 26

### 2. Curriculum

**YEAR1**

**Semester 1**  
Microbiology I (Practical and Theory)  
Chemistry I  
Biodiversity and Ecology  
Calculations & Statistics I  
Applied Communication Skills 1 (Model 1)

**Semester 2**

Microbiology II (Practical and Theory)  
Biochemistry II (Practical and Theory)  
Analytical Chemistry: Biological II  
Disease & Immune Response II  
Applied Communication Skills 1 (Module II)  
ICT Skills I

**YEAR2**

**Semester 3**

Microbiology III (Practical and Theory)  
Introductory Genetics II  
Microbial Biochemistry III (Practical and Theory)  
Fermentation Technology II (Practical and Theory)  
Applied Communication Skills II (Module I)

**Semester 4**

Food Microbiology III (Practical and Theory)  
Analytical Biochemistry III  
Quality Assurance I (Biological)  
Bioprocessing III (Practical and Theory)  
Applied Communication Skills II (Module II)  
Entrepreneurship

**YEAR3**

**Semester 5**

Biotechnology Laboratory Practice I

**Semester 6**

Biotechnology Laboratory Practice II

### ADVANCED DIPLOMA

It is imperative that those students wishing to apply for Advanced Diploma: Biotechnology, have an average of 60% for the core subjects in the Diploma Biotechnology, namely Microbiology III Practical and Theory, Bioprocessing III Practical and Theory, Food Microbiology III Practical and Theory, Microbial Biochemistry III Practical and Theory and Analytical Biochemistry III.

**Semester 1**

Green Biotechnology  
Molecular Biotechnology  
Research Methodology  
Biotechniques (Year Course)

**Semester 2**

Laboratory Management and Compliance  
White Biotechnology  
Advanced Microbial Biochemistry  
Biotechniques (Year Course)

### POSTGRADUATE DIPLOMA

Advanced Diploma in Biotechnology (60%) or equivalent.

**YEAR1**

**Semester 1**

Advanced Molecular Biology  
Bioinformatics Module I  
Advanced Biotechnology Module I  
Research Project (Year Course)

**Semester 2**

Bioinformatics Module I  
Biostatistics  
Advanced Biotechnology Module II  
Research Project (Year Course)

### MASTER OF APPLIED SCIENCE IN BIOTECHNOLOGY

(By Research)

Postgraduate Diploma in Biotechnology (60%) or equivalent

### PHD: BIOTECHNOLOGY

(By Research)

Master of Applied Science in Biotechnology or equivalent.

### 3. What are the functions of a Microbiologist/Biotechnologist?

Quality control in enterprises such as the following: water purification plants, food processing factories, dairies, pharmaceutical factories, sewerage plants, etc. Liaise with chemical engineers and technicians in the fermentation and biotechnology industries.

### 4. Career opportunities

A career as a Microbiologist / Biotechnologist offers challenging and exciting opportunities including quality control in enterprises such as: water purification plants, food processing factories, dairies, pharmaceutical factories, sewerage plants, etc. There is a demand for trained Microbiologists / Biotechnologists in industrial, research and academic settings.

Entry level: Laboratory Assistant  
Middle level: Laboratory Technician  
Top level: Laboratory Manager

Research opportunities are available at academic, industrial and research institutions.

### 5. Phased out Qualifications

NDip Biotechnology (phased out in 2016)  
BTech Biotechnology (phased out in 2019)  
M Tech Biotechnology (phased out in 2019)

2. Curriculum

**YEAR 1**

Semester 1
- Chemistry I
- Physics I Applied
- Mathematics 1 Applied
- Applied Communication skills I
- ICT skills I

Semester 2
- Analytical Chemistry I
- Analytical Chemistry Practical I
- Inorganic Chemistry II
- Mathematics II
- Organic Chemistry II

**YEAR 2**

Semester 3
- Analytical Chemistry II
- Analytical Chemistry Practical II
- Physical Chemistry II
- Inorganic Chemistry III

Semester 4
- Analytical Chemistry III
- Analytical Chemistry Practical III
- Physical Chemistry III
- Chemical Quality Assurance III

**YEAR 3**

Semester 5
- Chemical Process Industries II
- Physics Theory II
- Physics Practical II
- Entrepreneurship I
- Applied Communication skills I Module II
- Industrial Chemical Analysis I
- OR
  - Chemical Industry Practical I PI

Semester 6
- Chemical Project PII or
- Chemical Industry Practical I

### ADVANCED DIPLOMA

Diploma in Chemistry 60% in Analytical Chemistry 3 Theory & Practical, Chemical Quality Assurance, Mathematics 2 Chemical Industrial 1 or 55 Subjects and Chemistry project II.

**Semester 1**
- Analytical Chemistry IV
- Physical Chemistry IV
- Research Methodology in Chemistry

**Semester 2**
- Inorganic Chemistry IV
- Organic Chemistry IV
- Introduction to Chemistry Project

### POSTGRADUATE DIPLOMA

Postgraduate Diploma in Chemistry (60%) or equivalent.

**Semester 1**
- Advanced Analytical Chemistry V
- Applied Physical Chemistry V
- Chemistry Research Project

**Semester 2**
- Applied Inorganic Chemistry V
- Advanced Organic Chemistry V
- Chemistry Research Project

### MAPPSc: CHEMISTRY

Research Project by dissertation. Admission Requirements: B Tech Chemistry/BSc. Hons Chemistry/Postgraduate Diploma in Chemistry or equivalent with an average of 60%.

### PHD: CHEMISTRY

Research project by thesis. Admission Requirements: M Tech/MSc (Chemistry) or equivalent.

3. What are the functions of an Analytical Chemistry Technician?

Analysis of samples by the wet methods or using analytical instruments, writing reports on analysis, developing methods for analysis, writing requisitions for purchasing instrumentation, managing of a laboratory.

4. Career opportunities

A career in chemistry offers challenging and exciting opportunities in both the private and public sectors. There is a continuous demand for trained analytical technicians. Position on entry level: Laboratory assistant. Middle level: Laboratory technician. Top level: Laboratory manager. Researchers and development of scientific opportunities that exist in the Science councils. Opportunities also exist in the academic environment to become lecturers and professors.

5. Phased out Qualifications

- NDip Analytical Chemistry (phased out in 2016)
- B Tech Analytical Chemistry (phased out in 2018)
- M Tech Analytical Chemistry (phased out in 2017)
- D Tech Analytical Chemistry (phased out in 2017)

1. Admission Requirements:

**DEGREE: BACHELOR OF HEALTH SCIENCES IN MEDICAL LABORATORY SCIENCES (BHSC: MLS) 4 YEAR COURSE**

The student will have the first five semesters of class attendance at the University followed by three semesters of clinical practice in a laboratory approved for training purposes by Health Professions Council of South Africa (HPCSA). In the last two semesters of Clinical practice, the student will select an area of specialization. Students must pass a National Board Examination in their area of specialization before they graduate.

**NSC endorsement Eligibility for Bachelor degree**

2. Curriculum

**YEAR 1**

**Semester 1**
- Human Anatomy, Physiology & Disease I Module I
- Introduction to Medical Laboratory Sciences I Module I
- Health Chemistry I
- Health Physics I
- Biostatistics I

**Semester 2**
- Introduction to Medical Laboratory Sciences I Module II
- Human Anatomy, Physiology & Disease I Module II
- Laboratory Instrumentation and Techniques
- Cell Biology I
- Immunology I
- Introduction to Medical Laboratory Sciences I Module II

**YEAR 2**

**Semester 3**
- Clinical Chemistry II Module I
- Microbiology II Module I
- Haematology II Module I
- Immunohaematology II
- Histology II

**Semester 4**
- Clinical Chemistry II Module II
- Microbiology II Module II
- Hematology II Module II
- Cytology II

**YEAR 3**

**Semester 5**
- Clinical Chemistry III
- Microbiology III
- Haematology III
- Cytology III

**Semester 6**
- Integrative Medical Laboratory Sciences Theory III Module I
- Integrative Medical Laboratory Sciences III Module II (Clinical Practice)
- Research Methods III

**YEAR 4**

**Semester 7**
- Research Project IV
- Laboratory Management IV

**Semester 8**
- Clinical Practise (students must choose one from the following specialisation)
- Clinical Chemistry IV
- Microbiology IV
- Haematology IV
- Immunohaematology IV
- Cytology IV
- Histology IV
- Immunology IV
- Virology IV
- Forensic Sciences IV
- Pharmacology IV
- Cytogenetics IV
- Clinical Pathology IV

**ADVANCED DIPLOMA**

Diploma in Biomedical Technology with 60% average in Microbiology III, Chemical Pathology III, Cellular Pathology III and Haematology III.

**Semester 1**
- Research methodology in Biomedical Technology
- Medical Laboratory Management Module I
- Genetics Module I

**Choose one elective subject from the list below:**
- Advanced Chemical Pathology module I
- Advanced Cytogenetics Module I
- Advanced Haematology Module I
- Advanced Immunology Module I
- Advanced Medical Microbiology Module I
- Advanced Histology Module I
- Advanced Cytology Module I
- Advanced Virology Module I
- Forensic Technology Module I
- Marketing in Health Science Module I
Pharmacology Module I
Training in Health Sciences Module I
Immunohaematology Module I

Semester 2
Medical Laboratory Management Module II
Genetics Module II

Choose one elective subject from the list below (Module II of the elective chosen in semester II):
- Advanced Chemical Pathology module II
- Advanced Cytogenetics Module II
- Advanced Haematology Module II
- Advanced Immunology Module II
- Advanced Medical Microbiology Module II
- Advanced Histology Module II
- Advanced Cytology Module II
- Advanced Virology Module II
- Forensic Technology Module II
- Marketing in Health Science Module II
- Pharmacology Module II
- Training in Health Sciences Module II
- Immunohaematology Module II

**POSTGRADUATE DIPLOMA:**
**BIOMEDICAL TECHNOLOGY**
Advanced Diploma in Biomedical Technology (60%) or equivalent.

**Semester 1**
Advanced Molecular Biology (year subject)
Research Project in Medical Laboratory Sciences (year subject)
Epidemiology and Biostatistics
Integrated Pathophysiology

**Semester 2**
Advanced Molecular Biology (year subject)
Research Project in Medical Laboratory Sciences (year subject)
Management in Biomedical environment

3. **What are the functions of a Medical Laboratory Scientist?**

Qualified medical laboratory scientists are specialized health professionals who play an integral role in the healthcare of society by providing vital information about a patient’s state of health. Their input is necessary in the diagnosis, monitoring and treatment of diseases. They diagnose chemical, blood, immunologic, tissue, cellular disorders and also the presence of microorganisms that cause diseases. They analyze human specimens such as blood, urine, sputum, stool, cerebrospinal fluid (CSF), peritoneal fluid, pericardial fluid, and synovial fluid, and more other specimens.

4. **Career opportunities**
The analytical and diagnostic services provided by medical laboratory scientists require a strong scientific knowledge, as well as trained reasoning ability and empathy for humanity. Career opportunities exist in a variety of laboratory settings including national laboratories within hospital settings, private clinical laboratories, blood banking institutions, research, biotechnology, forensic, and reference laboratories.

5. **Registration with Professional Board**
On enrolment, it is mandatory that each student registers with the Health Professionals Council of South Africa (HPCSA) as a student Medical Laboratory Scientist as per regulations set out in the Government Gazette (Circular E2/a9/2, 79, 09, 28). Successful completion of this qualification will entitle the student to register with the Health Professions Council of South Africa (HPCSA) as a qualified Medical Laboratory Scientist.

6. **Phased out Qualifications**
- Bachelor of Nursing (R425) last date of intake 31 December 2019
- B Tech Community Nursing last date of intake 31 December 2019
- National Diploma in Biomedical Technology remaining students were incorporated into the Diploma programme syllabus
- Diploma in Biomedical Technology last date of intake 31 December 2019
- B Tech Biomedical Technology last date of intake 31 December 2019
- All phased out programmes to be completed by 2021. No student will be allowed to continue with programme beyond 2021 as it will no longer be on the system.

- Development Software II
- Business Analysis II
- Systems Software II
- Web Management II
- Applied Communication II
- IT Law*
- Entrepreneurship*

YEAR 3
- Information Systems III
- Business Analysis III
- Web Development III*

ADVANCED DIPLOMA: IT

The Advanced Diploma: IT is offered only at the Vanderbijlpark campus. It is offered on a full-time basis; therefore, students are required to take a full load of subjects. The minimum duration is one year. Eight modules must be completed and only seven modules can be completed if Networks is taken as an elective module. One elective subject is chosen per semester. In the case of Networks, if chosen, this will be the chosen elective for both semesters 1 and 2.

NB: It is imperative that students wishing to apply for Advanced Diploma: Information Technology, have an average of 60% for their final year subjects in their previous qualification.

Admission Requirements:
Diploma: Information Technology or equivalent relevant NQF level 6 360 credit qualification. 60% Average on all third-year subjects. (Ad hoc cases will be treated on merit).

Semester 1
Emerging Technologies (Compulsory)
Statistics for IT (Compulsory)
IT Management (Compulsory)
Advanced Software Design (Elective)
Computer Security (Elective)
Networks (Elective) in Semester 1 and 2

Semester 2
Research Methodology (Compulsory)
Advanced Databases (Compulsory)
User Experience Design (Compulsory)
IT Auditing (Elective)
Artificial Intelligence (Elective)
Networks (Elective) in Semester 1 and 2

* Credits: 120 credits on NQF level 7

POSTGRADUATE DIPLOMA: IT

The Postgraduate: IT is offered only at the Vanderbijlpark campus. It is offered on a full-time basis, therefore only during the day. The minimum duration is one year. Six modules must be completed.

Admission Requirements:
Advanced Diploma: Information Technology or equivalent relevant NQF level 7, 120 credit qualification (Ad hoc cases will be treated on merit).

Semester 1
Advanced supportive techniques and technologies
Business Intelligence
Software Engineering

Semester 2
Strategic Business Analysis
Database Administration
Research Project in Information Systems and Technology

* Credits: 120 credits on NQF level 8

MAGISTER OF SCIENCE IN INFORMATION AND
COMMUNICATION TECHNOLOGY (MICT)

Admission Requirements:
NQF level 8 related qualification with a minimum of 120 credits or equivalent with research methodology as a prerequisite with a 60% average for all subjects (Ad hoc cases will be treated on merit)

Duration: Minimum 2 years, maximum 3 years part-time study.

Curriculum:
Research project by dissertation

Credits: 180 credits on NQF level 9

DOCTOR PHILOSOPHIAE IN INFORMATION AND
COMMUNICATION TECHNOLOGY: PhD: ICT

Admission Requirements:
NQF level 9 related qualification with a minimum of 180 credits or equivalent with a 60% average (Ad hoc cases will be treated on merit)

Duration of course:
Minimum 2 years, maximum 4 years part-time study.

Curriculum:
Research project and thesis

Credits: 360 credits on NQF level 10

3. NON-ALIGNED PROGRAMS

The following ICT qualifications have phased out due to revisions in the Higher Education Qualifications Sub-Framework (HEQSF). Currently, only students who were previously registered at VUT for these qualifications will be allowed to continue. This opportunity will only be provided until the dates listed in the table below. Where modules have already phased out, suitable alternatives will be identified, and credit will be given in lieu of the original module (subject to the sunset dates provided). After the sunset dates, students that were registered for the non-aligned modules will need to register for the new, aligned qualifications.

- NDip: IT (phased out in 2016)
- BTech: IT (phased out in 2019)
- MTech: IT (phased out in 2019)
- DTech: IT (phased out in 2019)

Work Integrated Learning

The IT Diploma does not have a formal Work Integrated Learning component.

4. WHAT DOES THE IT SPECIALIST DO?

The person will find himself/herself in any of a wide variety of computerised environments. Responsibilities may include the maintenance of systems in use, systems analysis and design and/or programming of new systems, network administration, database administration and user support. The computer specialist communicates with management and the different users of the systems, which make the position an important link in the global set-up of the organisation. Management of IT functions is a possible position in the career development of the keen IT specialist.

5. CAREER OPPORTUNITIES

Computerisation of most facets of modern society creates a multitude of possibilities. In-service training includes the development of prototypes or systems and/or the supervised support of existing systems. The typical entry level is that of programmer with a quick advance to the level of senior programmer. Further promotions are to the level of Systems Analyst, Network Administrator or Database Administrator.

6. CAREER STATUS

IT specialists can acquire membership of the Computer Society of South Africa.

7. ENQUIRIES

Enquiries may be addressed to:
Head: Department: Information and Communication Technology
Faculty of Applied and Computer Sciences
Vaal University of Technology

2. Curriculum

**YEAR 1**

**Semester 1**
- Chemistry I
- Mathematics I
- Physics I
- Applied Communication Skills I. I
- ICT Skills I
- Introduction to NDT I (Theory)
- Introduction to NDT I (Practical)

**Semester 2**
- Mathematics II
- Physics II (Theory)
- Physics II (Practical)
- Engineering Drawing I
- Penetrant Testing II (Theory)
- Penetrant Testing II (Practical)
- Radiographic Testing II (Theory)
- Radiographic Testing II (Practical)

**YEAR 2**

**Semester 3**
- Magnetic Particle Testing (Theory)
- Magnetic Particle Testing (Practical)
- Ultrasonic Testing (Theory)
- Ultrasonic Testing (Practical)
- Introduction to Fracture Mechanics
- Metallurgy for NDT I

**Semester 4**
- Advanced Ultrasonic Testing (Theory)
- Advanced Ultrasonic Testing (Practical)
- Eddy Current Testing (Theory)
- Eddy Current Testing (Practical)
- Quality Assurance
- Entrepreneurship I
- Metallurgy for NDT II

**YEAR 3**

**Semester 5**
- Advanced Radiographic Testing (Theory)
- Advanced Radiographic Testing (Practical)
- Advanced Eddy Current Testing (Theory)
- Advanced Eddy Current Testing (Practical)
- Signal Processing
- Project (Numerical Analysis)

**Semester 6**
- Work Integrated Learning (NDT)

**ADVANCED DIPLOMA**

National Diploma in NDT with an average of 55% from all S4 subjects including Fracture Mechanics or Diploma in NDT with an average of 55% from all S5 subjects including Advanced Methods of NDT (Theory & Practical) and Introduction to Fracture Mechanics or

National Diploma or Diploma in Metallurgical Engineering, Mechanical Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering with an average of 60% from all S4 or S5 subjects or Bachelor’s Degree in Physics, Mathematics and Chemistry with an average of 60% from all final year subjects including Mathematics II and Physics II in case where they are not major subjects

**Semester 1**
- Ultrasonic Testing Techniques IV
- Fracture Mechanics IV
- Numerical Analysis with Matlab Applications IV
- Research Methodology IV
- Optical Testing Methods IV (Elective Module)
- Penetrant Testing Methods IV (Elective Module)
- Acoustic Emission Testing Methods IV (Elective Module)

**Semester 2**
- Radiographic Testing Techniques IV
- Electromagnetic Testing Techniques IV
- Corrosion Inspection & Monitoring Techniques IV
- Thermographic Testing Techniques IV
- NDT Project IV

3. Career Opportunities

NDT Technicians: Perform inspections, monitoring, evaluations using non-destructive methods and quality assessment techniques. This is achieved through both fabrication and maintenance inspections conducted in accordance with regulatory requirements (codes and specifications). The technician can be part of an NDT department or unit within a company or as an independent service provider.

NDT Specialist: Being part of a team involved in project development including design, fabrication and specifying inspection techniques and methods to be used to ensure product safety, reliability and longevity.

NDT Research and Development Professionals: Working on improving the reliability of inspection methods and techniques. Further developing new techniques to inspect the improved materials and products utilised in the industry.

4. Phased out Qualification

- National Diploma in Non-Destructive Testing [course code: 215048, which had the last date of intake being 31 December 2016].
- National Diploma in Non-Destructive Testing (Extended) [course code: 215099, which had the last date of intake being 31 December 2014].
- No student will be allowed to continue with phased out programmes beyond 2021 as they will no longer be active on the system [6-year maximum duration for the completion of the qualification elapsed].

e-mail: ike@vut.ac.za  
website: www.vut.ac.za
WELCOME
The VUT Sport and Recreation would like to extend a warm welcome to you as a new student on campus. We invite you to make use of the numerous well-equipped sport facilities that are available. We have top quality coaches who are willing to help with your needs. Through sport we build the image of Vaal University of Technology (VUT). We wish you a happy and successful sporting experience.

ADMISSION REQUIREMENTS
Registration at any one of the sport clubs is open to all full time, part time, as well as non-students at VUT. Acceptance to clubs depends on that club’s constitution. There is no discrimination with regard to gender, colour, or creed at the Sport Academy and its associated divisions and clubs. This is also the policy at the Vaal University of Technology. Kindly note that only bona fide VUT students will qualify for selection to national student teams and for representing VUT at the University Sport South Africa (USSA) tournaments and Varsity sport competitions.

Bursaries & Loans

Financial Aid Office

VISION
To become recognised as a leading administrative section providing a creative, holistic personalised and satisfactory service to a wide range of clients, to the maximum benefit of all concerned.

MISSION
Financial Aid Office strives to offer a comprehensive internal and external administrative service to all stakeholders, specifically catering for individual needs in a creative and professional manner in order to make a meaningful contribution to their success and in so doing to foster a long term working relationship.

The Financial Aid Office offers the following services in order to help students to obtain bursaries and/or loans to be able to complete their studies. Bursaries and/or loans are offered in all study fields at the Vaal University of Technology.

1. SPORT BURSARIES
The Vaal University of Technology offers Sport Bursaries to students who have excelled in sport. The value of these bursaries is determined by the level of competitions in which candidates have participated.

The retention of a sport bursary is dependent on satisfactory academic progress.

Contact number: (016) 950 9282 / 9307

2.2 SENIOR STUDENTS Please note:
Funds are allocated in the following manner: Annual aggregate of 75+(Minimum 3 registered subjects per annum), R5000 automatic award.

3. COMPANY BURSARIES
At the Vaal University of Technology we fully provide assistance to all company sponsored students. Students who are in possession of confirmation letters must report to the Financial Aid Bureau where their registration will be dealt with.

The following assistance is provided
- Meal vouchers
- Book vouchers
- Booking of residence
- Sending of statements
- Sending of Academic Records
- Handling of all refunds
- Debt Collection
- Company Visits

NOTE: The Vaal University of Technology is not responsible in funding or seeking sponsorship (s) for students. It also remains the responsibility of the student to ensure that their accounts are settled on time.

Should any information be required feel free to contact the following numbers:
Tel: (016) 950 7652/9342 Fax: (016) 950 9106

The Vaal University of Technology will provide assistance to students in securing placements for experiential training but does not guarantee such placements.

4. LOANS
i) NSFAS LOANS

What is NSFAS?
The National Student Financial Aid Scheme (NSFAS) is a loan and bursary scheme operating in terms of Act 56 of 99 and funded by the National Department of Education. NSFAS has been established to assist academically deserving and financially needy students to achieve academic goals at tertiary educational institutions in South Africa, with particular concern in overcoming barriers created by structural disadvantage.

What does NSFAS offer?
- The means to obtain a tertiary qualification
- Loans at low interest rates
- Loans without guarantees
- A reasonable repayment plan

NSFAS convert loan (s) to a Bursary.
Up to 40% of the award may be converted into a bursary depending on your end of year results.

- If you pass all the courses for which you have registered, you qualify for a 40% bursary.
- If you pass three quarters of the course, you qualify for a 30% bursary.
- If you pass half of the courses, you qualify for a 20% bursary.
- If you pass one quarter of the course, you qualify for a 10% bursary.
- If you pass none of the courses, you qualify for no bursary at all.
What is a loan?
- A loan is the money you borrow to cover tertiary studies.
  This loan has to be repaid.

Who qualifies for a NSFAS loan?
You can qualify for a NSFAS loan if you are:
- A South African citizen;
- Registered at a South African university or University of Technology;
- An undergraduate, studying for a first tertiary educational qualification; or
- Studying for a second tertiary qualification, if this is necessary to practice in your chosen profession; (e.g. LLB or HDE)
- Able to demonstrate potential for academic success;
- Financially needy;
- You will, however, be expected to make your own family contribution towards the total costs of your studies. (EFC)

How much money do you get?
- There is a minimum award and a maximum award, which is determined annually by NSFAS. Please enquire at the Financial Aid Office for the current limits.

Where do you apply for a loan?
At the Financial Aid Office of the Vaal University of Technology.

NOTE:
Interest on NSFAS awards is determined annually by NSFAS.

Closing dates:
Senior students (year and first semester courses) 04 October.
First year students (year and semester courses) 31 October.
Late first year applicants: 24 January.
Late applicants will only be considered for awards if funds are available.

Contact numbers:
(016) 950 9484, 9972, 9486, 9485, 9571
Brochures for NSFAS ‘Students guide to funding’ are available at the Financial Aid Bureau office.

---

Apply for a loan at the Finance Office,
Window 14&15, VUT
Please contact your customer service consultant,
Nonkululeko Jali.
Tel: 016 950 9948 | Email: nonkululekoj@fundi.co.za
For more information, visit www.fundi.co.za

At Fundi, we cover study fees, registration fees, outstanding balances, text books, accommodation, uniforms and stationery, laptops, tablets and other study tools.

With the agreement we have with various institutions around South Africa, we pay direct into the institutions.

And the applicant pays us back with low interest rate and at an affordable monthly repayment.
For someone to qualify for a Fundi Loan, the person must be permanently employed.
Student Counselling and Support Career Services

Student Counselling and Support as a whole is committed to offering career support, career counselling and guidance, therapeutic counselling and support as well as spiritual/pastoral guidance and support.

Career services that are offered within Student Counselling and Support

The Career Centre Support Services include:

- Career Guidance
- Psychometric Testing
- Workplace Preparation:
  - CV writing
  - Job hunting skills
  - Interview skills
  - Professionalism and ethics
- Academic Support:
  - Adjustment to student life
  - Study skills/time management
  - Exam preparation
  - Exam and test anxiety
  - Personal Finance

As enrolled students, the above services are available FREE of charge.

Prospective students and External Clients can liaise with our department to enable them to make appropriate subject (Grade 9) and career (Grade 11/12) choice as well as graduate career development decisions. Career and subject choice counselling process include:

1. The initial interview (40-60 minutes) and parents are welcome to sit in on the interview
2. Psychometric testing (approximately 5 hours) determining your:
   - interests: which measures how people differ in their motivation, values and opinions in relation to their interests
   - Aptitude: Which measures how people differ in their ability to perform or carry out different tasks
   - Personality: Which measures how people differ in their style or manner of doing things and in the way they interact with their environment and other people
3. Feedback session (40-60 minutes), where we will be giving feedback about the assessment and discussing the outcomes with you. Parents are welcome to sit in during this session

Procedure to follow on assessing our services:

- Phone (016) 950-9244 or visit us at P021
- An initial interview will be arranged, after which a payment (R600.00) must be made at AW-Building into cost code 4220/5460. The receipt must be forwarded to us.
- A booking for psychometric testing will be confirmed as soon as the proof of payment is received
- The payment includes the feedback session that will be scheduled after the psychometric testing to discuss the results.

Career Assessments and Career Guidance Services are offered to Grade 9-12 Learners as well as those who have graduates and are looking to develop in their career.

Office Hours:
Monday – Friday
08:30-16:30
