1 March 2022

Dear Staff and Students

**CAMPUS VACCINATION DRIVE**

On 5 March 2022, the world will enter the third year of the COVID-19 pandemic. This then forces us to face the reality of a profoundly changed world from the way we live and work to how we learn and study.

In January this year our HR Department issued a memorandum inviting all staff members to return to work at 100% capacity whilst observing full compliance with COVID-19 regulations.

According to, Dr Ramneek Ahluwalia - CEO of Higher Health, science has clearly shown that vaccine-induced immunity assists in the fight against COVID-19. It prevents severe illness, hospitalisations and death.

I would therefore like to appeal to and encourage VUT staff and students to get vaccinated during the upcoming campus vaccination drives. Each one of us has a role to play in protecting themselves and the next person to prevent the spread of the Corona Virus. For more information on vaccination related matters, kindly contact the *Sr Elleanor Moloko* on *071 904 8890* or email *elleanorm@vut.ac.za*, *016 950 9896*.

The next Vaccination Drive is scheduled for **Tuesday, 5 April 2022**. Please take advantage of this opportunity and protect yourself and others.

Sincerely

**Prof Dan Kgwadi**

**Vice-Chancellor and Principal**
